PROFESSIONAL SUMMARY

BCA student with an 8.9/10 CGPA and experience in Python development, cloud engineering, and web development. Skilled in Python, Django, REST APIs, AWS, Azure, Docker, Kubernetes, Terraform, and CI/CD. Experienced in backend development, automation, debugging, and data processing.

EXPERIENCE

Brain Cluster — Python Developer **Jun 2026 – Jul 2026**

- Developed Python applications, backend services, and REST APIs using Django.
- Implemented automation workflows, investigated application issues through logs and failure reproduction, and wrote and maintained automated tests.

HEPROAI — Cloud Engineer Intern **Nov 2025 – May 2026**

- Supported AWS and Azure infrastructure and automated deployment, infrastructure, monitoring, and operational workflows using Python and cloud services.
- Reported a 67% reduction in manual effort; worked with Docker, Kubernetes, Terraform, CI/CD, and Linux, and investigated issues using logs and monitoring tools.

SUVIDHA — Web Developer Intern **Feb 2026 – Mar 2026**

- Developed responsive web interfaces and interactive components using HTML, CSS, and JavaScript; improved usability and responsiveness and debugged frontend issues.

IBM — Data Analyst Virtual Internship **Jun 2026 – Jul 2026**

- Cleaned, transformed, and analyzed structured datasets using Python; automated repetitive data-processing tasks and performed exploratory analysis.

Suvidha Foundation (Suvidha Mahila Mandal) — Research Intern **Sep 2025 – Nov 2025**

- Conducted technical and project research, analyzed information from multiple sources, and prepared structured documentation.

Hamari Pahchan NGO — Swaraj Fellowship, Social Entrepreneurship **Jun 2025 – Sep 2025**

- Participated in a fellowship focused on social entrepreneurship.

PROJECTS

AI-Optimized Cloud Storage System

Developed a cloud-focused storage solution involving application and infrastructure components, with emphasis on automation, reliability, and data handling.

School Management System

Built a management platform for students, teachers, and administrators, including backend functionality, database operations, role-based features, and input validation.

Trading Git

Developed a Python application for processing and presenting financial information; used Git for version control.

EDUCATION

Bachelor of Computer Applications (BCA) — Maharshi Dayanand Saraswati **2024 – 2027**

CGPA: 8.9/10

TECHNICAL SKILLS

Languages: Python, JavaScript, Java
Backend: Django, REST APIs, backend development
Cloud & DevOps: AWS, Azure, Docker, Kubernetes, Terraform, CI/CD, Linux
Web: HTML, CSS, responsive web design
Tools & Practices: Git, GitHub, automated testing, debugging, data analysis

CERTIFICATIONS & ACHIEVEMENT

DevOps Certification — Intellipaat · Generative AI — IBM · Data Fundamentals — IBM · Responsive Web Design — freeCodeCamp · Tata GenAI Powered Data Analytics Job Simulation — Forage · Java Deep Learning — Mindlister
